

FABRIKA Customized Plug and play

For use in e.g. electrically
operated sliding doors

Comes with cables for easy
and fast mounting.

Possible options include
brake, one-phase, extra
output shaft and much more.

Adapted to your specific
needs.

Easy to adapt to your
product as dimensions are
according to the market
standard.

Comes completely
assembled which reduces
risks for errors.

Customized motors for your needs

At Fabrika, we can customize your motor to suit your specific needs.

This is both quicker for you than if you had to make your own adjustments to the motors you buy – and then it makes business sense.

- Time- and cost-saving, functional and well-documented solution
- Sharp quality control
- Many possible modifications, e.g. custom molding, cabling, coating and much more
